VAR 9 AIR MONOBLOC CONSOLE

Airwell

VAR

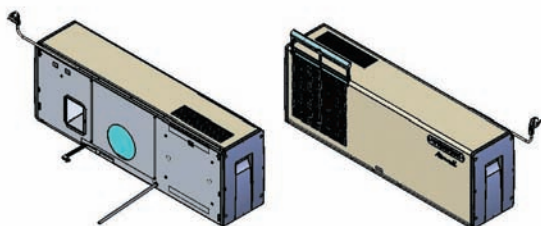

VAR 9

The VAR 9 air monobloc console is intended for air conditioning small areas when the building structure, or aesthetic reasons, prevent the installation of an outdoor condenser unit. The VAR 9 console provides the complete range of air treatment functions: cooling, ventilation (3 speeds automatic ventilation) and heating (electric).

Equipped with an easily accessible high efficiency air filter, VAR 9 maintenance is extremely simple. The use of high efficiency R410A fluid provides energy savings, high levels of performance and user comfort; the unit is very easy to install, due to its simple connections and compact dimensions.

Control panel

> Product benefits

- New monobloc console concept without enhanced acoustic insulation.
- Outdoor unit.
- High efficiency R410A fluid.
- Ideal solution for premises where it is not possible to install an outdoor condenser unit.
- 1,500 W capacity electric heating, factory fitted.
- Direct control panel with LED display.
- Easy installation and operation.
- AircoNet compatible system.
- Ready to operate system.
- Electrostatic filter.
- Floor or low wall-mounting.
- Condensates drainage pipe supplied.
- Compact design and dimensions.
- Rear outlet grille kit supplied.

VAR Series

VAR 9

Cooling capacity	kW	2,52
Power Input	kW	0,97
EER/ Energy Label		2,6/C
Operating limits outdoor temperature	°C	21°/ 43° Dry bulb

Air flow (LS/NS/HS)	m³/h	200/250/300
Acoustic pressure to 1m (LS/HS)	dB(A)	43/45/50
Dehumidification	l/h	-
Weight	kg	43
Dimensions (WidthxDepthxHeight)	mm	1080x230x385
