

DRYWELL RANGE
FOEN
DEHUMIDIFIER

The DRYWELL range is able to satisfy the dehumidification exigencies of small and big rooms. Easy to transport and with minimum space requirements, it is the ideal solution for building and houses with excessive mould and humidity, due to the lack of sun or because the building is an old construction. The dehumidifier helps in reducing the drying time of your washing and maintains the air's humidity under control.

PRODUCT ADVANTAGES

- Compact and easy to handle.
- Modern and pleasant design.
- Reduced energy consumption.
- Environmentally friendly refrigerant gas.
- Ideal solution for rooms subject to humidity.
- Reduces the drying time of washing (linen).
- Removable water recovery tank.
- Easy to carry.
