A COMPLETE MONITORING SOLUTION!

VISUALIZATION OF YOUR VRF FLEET

Visualize the parameters of all your VRFs spread over a city, a region, a country or the whole world.

THERMAL COMFORT OPTIMAL

Entrust your thermal comfort to AirConnect Pro, to free you from technical constraints and operating hazards.

PREDICTIVE MAINTENANCE

Go from reactivity to proactivity! Easily create your predictive rules to prevent any problem or untimely shutdown of your systems.

HISTORY MANAGEMENT

Access the complete operating history (fluidic and electrical) of each indoor and outdoor unit since the day it was commissioned. Make comparisons between periods or between sites.

TECHNICAL DIAGNOSTICS

Carry out your technical diagnostics remotely in no time and offer a technical service of unparalleled quality and speed while optimizing the work of on-site technicians.

ALERT MANAGEMENT

Be alerted to the slightest drift! Alerts and anomalies can be sent directly to your technicians according to their level of technical expertise or their geographical proximity.

ENERGY METERING

To comply with the tertiary sector decree, controlled consumption counts! Analyze the real consumption by indoor unit or by zone by taking into account the breakdown of the consumption of the outdoor units according to the use of each indoor unit. Ideal for energy billing in multi-tenant buildings thanks to a MID certified meter.

REMOTE CONTROL

Manage modes, set points, programming schedules or limitations of each of your sites remotely.

Simple data collection with the AirConnect Pro cloud box

Up to 2 VRF systems and 128 indoor units managed by AirConnect Pro.

AIRCONNECT PRO IS A COMPLETE SOLUTION THAT OFFERS 3 LEVELS OF SERVICE:

- ▶ **CONTROL APP:** control of the indoor units
- ▶ **SERVICE APP:** diagnosis and preventive maintenance
- ▶ **MANAGEMENT APP:** energy metering and optimization

CONTROL APP (control of the indoor units)	<p>Unique solution for remote control of indoor units</p> <ul style="list-style-type: none"> • Management of modes, setpoint temperatures, fan speed • “Weekly schedule” programming without rule limitation • Creation of control zones for energy savings
SERVICE APP (diagnosis and preventive maintenance)	<p>The ONLY preventive remote maintenance solution on the market: Prevent a breakdown before it happens!</p> <ul style="list-style-type: none"> • Remote display of all DRV installation parameters and one-click diagnosis • Recording of all data allowing a complete history of operation • Management and follow-up of alerts to designated technicians
MANAGEMENT APP (energy metering and optimization)	<p>The most reliable and accurate energy metering solution on the market. APP management allows the division of the global consumption per indoor unit according to its operating parameters.</p> <ul style="list-style-type: none"> • Division of the global consumption by indoor unit or by zone • Energy audit of the installation allowing energy savings • Comparison of consumption by system or by site in order to optimize the operation of machines and reduce energy costs

SERVICE REFERENCES

	1 st YEAR PACK	FROM YEAR 2
AIRCONNECT PRO BOX	Cloud BOX AIRCONNECT PRO CONTROL APP license with no time limit. 1 year service app license for the maintenance solution.	Tacit renewal of the license of service app. In the event of termination of the service app, the CONTROL APP application remains usable for life.
LIFETIME CONTROL APP LICENSE	SO3199999	
SERVICE APP LICENCE PER YEAR	SO3299999	
	SO30120xx	xx = system cooling capacity

AS PART OF ITS INVOLVEMENT IN THE
ENERGY TRANSITION
AIRWELL HAS IMPLEMENTED THE

Airwell ACADEMY

TECHNICAL & QUALIFICATION TRAINING

to allow maintenance technicians, installers and distributors to develop their knowledge and offer them an energy management system that is both essential for their activity but also for the planet!
